Comments:

  I graded myself slightly lower than the maximum amount in the effort to explore topic and time spent because I really didn't take too much time out of my day to write up the paragraphs.

Comments:

> Me and Hunter spent quite some time messing around with different angles and settings on the cameras when we went out to capture the pictures, but because I'm so strange, I wasn't happy with the way my bio photo came out, just the expression on my face bugs me.

Comments:

   I really liked the way my video clips came out, I spent an entire day filming random aspects of my life while I changed setting on the camera to get a different feel out of it.

                                                            Total: 100/100points

Comments:

   I was very happy with the way my natural and creative edits
   came out in the end. I felt very comfortable with the program
   we used to edit after a few classes going over Bridge and its
   capabilities.

                                                                       Total: __100__/100points

Comments:

> video clips together. My only complaint is that I thought
> we couldn't have any audio in the project, and I really
> think the project could've been stronger.

Comments:

   I lost half of my audio files somehow, so only 6 have been loaded to the webpage.

                                                                     Total: 70 /100points

Comments:

   I spent quite some time putting this piece together, and I
   think it ended up sounding pretty good.
